DIRTWORKING

The ideal tool for seedbed preparation.

Land Pride's PR16 Series Powered Rake is a multi-functional seed bed and soil surface preparation tool for landscapers and turf care professionals, capable of grading, leveling, shaping, cultivating, renovating, and pulverizing various types of soil surfaces. They are also capable of raking or windrowing soil, rocks, and construction site debris. The 60" or 72" working widths are a good choice for smaller landscaping and turf renovation jobs, while the 90" model is perfect for larger commercial jobs.

Wide gauge wheels adjust vertically to set working depth. Sealant helps seal against punctures.

Cast iron chain guard housing protects chain in harsh conditions.

Carbide tipped studs are very tough and can be replaced individually as necessary.
